

VINITA PORLEKAR

Sterling, VA - 20166, | porlekar.v@northeastern.edu | 703-581-4595

<https://github.com/vinitaporlekar> | <https://vinitaporlekar.netlify.app> | <https://www.linkedin.com/in/vinitaporlekar/>

EDUCATION

- Northeastern University, Arlington, VA** **Expected May 2027**
Master of Science in Information Systems
- University of Mumbai, MH, India** **May 2019**
Bachelor of Engineering, Computer Engineering

CORE SKILLS

- Programming & Development:** Java, JavaScript (ES6+), OOP, REST APIs, Python, Unit Testing, Debugging
- Web & Full-Stack:** React.js, Node.js, HTML5, CSS3, Tailwind CSS
- AI & Backend:** LLMs, NLP, AI Chatbots, API Integrations, Automation
- Cloud & Tools:** AWS (Cloud Practitioner), GitHub, Postman, Jira, CI/CD, Deployment
- Additional:** Agile/Scrum, Technical Documentation, Figma
- Databases:** SQL, PostgreSQL
- Certifications:** AWS Cloud Practitioner [Link](#) & Certified SCRUM Master

EXPERIENCE

Technical Product Manager (Engineering-Focused) - Tercera - Hurix Digital, Mumbai, India **Oct 2023 –Mar 2025**

- Translated product requirements into technical specifications and contributed directly to the codebase using Python, JavaScript, REST APIs, Git version control, and automated testing to build AI-powered e-learning MVPs
- Developed and optimized React.js UI components, implemented API integrations, performed debugging, and participated in code reviews increased user engagement by 80%.
- Built, tested, and deployed AI-driven features using CI/CD pipelines for production cloud environments
- Coordinated Agile sprints and collaborated closely with engineers to implement features on time and at scale

Senior Analyst – Jio Platform / Haptik, Mumbai, India **June 2021 – Sep 2023**

- Analyzed user data and feedback to improve AI chatbot workflows and feature performance
- Built, tested, and deployed chatbot solutions using Python automation, APIs, and performance monitoring
- Implemented frontend UI components using React.js, responsive design, debugging tools, and version control (Git)
- on Figma designs, contributing to a 75–80% increase in user engagement

Application System Analyst – Planet Next Gen, Mumbai, India **Nov 2019 – June 2021**

- Built automation tools and Python scripts for system optimization, testing, and workflow efficiency that reduced development time by 55% and training time by 50%
- Developed reporting dashboards and tools to support data-driven decision-making, improving efficiency by 70%

PROJECT

AI-Powered E-Learning Assistant - Product Owner (Associated with Hurix Digital) **Oct 2023 – Mar 2025**

- Designed and implemented an AI-powered assistant using NLP techniques to summarize notes and generate quizzes
- Improved study efficiency by 65% for 40+ students through automated content generation
- Performed testing and performance optimization across frontend and backend services

AI-Powered Research Paper Organizer | Full-Stack | [Source Code](#) **Jan 2026**

- Built a full-stack web application using React, Node.js, REST APIs, and LLMs and Implemented PDF parsing, semantic search, tagging, and Q&A over research documents
- Designed and implemented backend services for document ingestion, indexing, and retrieval using REST APIs
- Used Git for version control, debugging, and iterative feature development
